

## PLANNING FOR POST-PANDEMIC VENUE SAFETY AND SECURITY

Now that many stadiums, arenas, concert halls, and convention centers are reopening and welcoming crowds back in for events, safety and security is once again a paramount concern for the security leaders in charge of safeguarding these spaces, patrons, and workers.

In a new podcast from the Natural Disaster & Emergency Management (NDEM) Expo, host Todd DeVoe and James DeMeo discuss the evolving..

**ETHERNET: FIBER OPTIC, WIRELESS, OR EXTENDED DISTANCE COPPER – HOW TO EXTEND DISTANCES OVER YOUR NETWORK?**  
*SPONSORED BY: COMNET*

Extending IP transmission distances are a major consideration in any network. ComNet offers three types of media converters: fiber optic, extended distance over COAX/CAT, and wireless. Since they all transmit Ethernet, they are all converting from a standard network cable, which has a limitation of 100 meters.

A fiber optic media converter converts...
