ISC West Keynote Series Summary: Learning From Tragedy Saves Lives in The Future

The keynotes at ISC West 2022 attracted some of the most experienced security professionals in the world. In three plenary sessions on each of the three days of ISC West at the Venetian Expo in Las Vegas, experts in aviation, law enforcement and penetration testing informed and engaged the largest conference audiences at the event. ISC News Editor-in-Chief D.J. Murphy attended all three keynotes and will delve into some of the more interesting content you might have missed.

On Nov. 30, 2021, a 15-year-old student brought a handgun to Oxford High school in a suburb of Detroit and shot 11 people—three high school students were killed in the attack. While the loss of life was tragic, Oakland County, Mich. Sheriff Michael Bouchard said...

TIA Says New Standard Improves Supply Chain Security

The Telecommunications Industry Association (TIA) says the recently released SCS 9001 Supply Chain Security Standard has shown demonstrated improvement in supply chain security.

TIA recently released the first two of a series of Technical Bulletins to show how the standard helps governments and businesses improve the information communications technology (ICT) industry's supply chain security. The bulletins come after TIA submitted comments...
